

Level-Trac Model 501 Medium Pressure (to 2000 PSI) Water Column

The Level-Trac Model 501 probe column features sturdy construction in full compliance with ASME requirements. Each column is custom built to the customer's individual specifications. Features included are:

- Extruded A-105 Column
- Probe Spacing per Customer's Requirements
- Optional Connections for Direct Reading Sight Glasses
- Piping Connections to Meet Customer Specifications

The Model 501 Water Column may be used as an independent remote level indicator per ASME PG-60, or as a traditional water column for the mounting of direct reading sight glasses. All piping connections are to user specifications.

Model 501 Column
with ST-600 Level Gage
