

● **Level-Trac** Probe Upgrade Kits

Level-Trac probe upgrade kits offer a better value as compared to original equipment manufacturers. All these probes feature:

- Hydrostatically test to twice the rated pressure
- Helium leak test
- Ceramic to metal vacuum brazing
- **Two year guarantee** of trouble-free service regardless of the original equipment manufacturer

Level-Trac probe columns are also available featuring the **Level-Lock** swage-type, ferruled metal-to-metal probe seat, eliminating common failures associated with gasket arrangements.

Replacements for other brands are available. Please contact your sales representative.
