

TO		SUBJECT	GLASS COVER REMOVAL (PERFORATED CUSHION INSERT)
		DATE	11/16/2012
		ISSUE NO.	2012-A
		BY	JAB

Note: This document is not the instruction manual. The instruction manual should be reviewed in its entirety prior to installation of equipment.

- 1) Check the bolt torque by following the retorque procedure on the torque tag, and instruction manual.

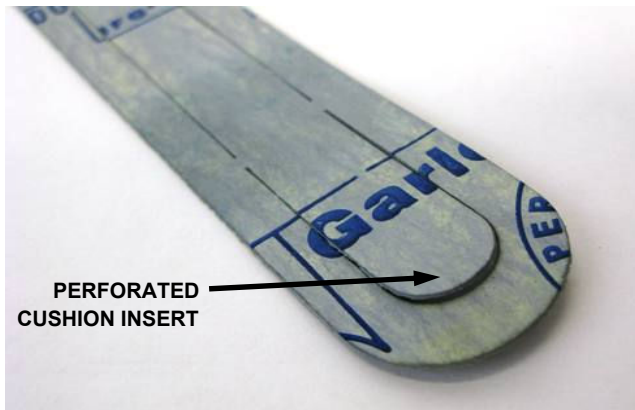

- 2) Review the yellow caution tape, then remove from gage.

TO	SUBJECT	GLASS COVER REMOVAL (PERFORATED CUSHION INSERT)
	DATE	11/16/2012
	ISSUE NO.	2012-A
	BY	JAB

- 3) Under the yellow caution tape, there is a perforated cushion. This part protects the glass from dirt, dust and debris until the gage is ready to be placed in service.

- 4) Pry up one edge, and remove the perforated insert to expose the glass.
