

## Illuminators

- An illuminator can not power more than 4 sections of a gage.
  - If you have a gage containing more than 4 sections, you must order more than 1 illuminator
    - For example: A customer orders SLI-87-115AC
      - Above the line:
        - \*QTGLASS-TRAC (or \*QTSTEAM-TRAC)
        - Their order in the line comments
      - Below the line:
        - One SLI-84
        - One SLI-83 (3 + 4 = 7; for size 8 gage)
        - Mark “None” in Line User Fields
  
- Amber Illuminators (SLI-\_\_ A) are for Steam-Trac Gages
